HR Market

UK HR hiring showed early signs of recovery across July to September 2026, our second fiscal quarter.

The Indeed Hiring Lab index of HR postings closed the quarter a little higher after a **10.9%** spring fall, and permanent placements grew for the first time in nearly four years.

The growth is marginal and the wider market still soft, but the direction has changed.

3. Consider the full package, not only base salary, including bonus, benefits, pension or retirement contributions, leave, and contract terms.
4. Decide what range and overall package you would consider before the conversation
